Re:- Materials got released by dismantling the buildings acquired for the Straight Road Scheme in Mysore

---

I have the honour to state that the buildings acquired for the Straight Road Scheme were mostly dismantled during December 1946 to August 1947 and the released materials were disposed of mostly by auction which used to be conducted every week, after an inventory of the released materials was made and the articles to be auctioned listed, after giving wide publicity to the same

2 The auctions were conducted mostly by the Trust Board Engineer or in his absence by the Sub Engineer, who are also responsible Officers

3 The amounts realised in auction were remitted by the Suboverseer concerned to the Office Treasury, and some of these items taken to Deposit Account pending verification of the released materials accounts

4 A register has been got maintained to show the total quantity of different materials as per inventory before dismantling, the quantities disposed of in auction, amounts estimated to be realised by these materials, and those actually realised per each building Against the total expected realizations of Rs 70,352/-, a sum of Rs 65,293/- has actually been realised

5 In accordance with one of the conditions of notification, the materials were being permitted to be removed by the highest bidder after the auction to safe-guard against any loss that may occur before confirmation of the auction by the Chairman Since the auctions were fairly frequent and since the expected realisations, were got during the auction, the confirmation by the Chairman was only formal and was being taken in the last few auctions and subsequently seems to have been lost sight of In view of the fact that the auction was being conducted by the responsible Officers of the City Improvement Trust Board and in view of the fact that the realisations from the auction has been very near the anticipated
